http://pipes.jocogov.org/ **-** *must create Yahoo account in order to build pipes.*
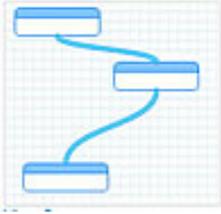

Pipes is a powerful composition tool to aggregate, manipulate, and mashup content from around the web:

- Combine many feeds into one, then sort, filter and translate it.
- Geocode your favorite feeds and browse the items on an interactive map.
- Power widgets/badges on your web site.
- Grab the output of any Pipes as RSS, JSON, KML, and other formats.
